

## TECHNICAL CHARACTERISTICS OF PRODUCT

The characteristics of the product specified in this technical report meet the specification and test methods according to norm ASTM requirements.

### PRODUCT SPECIFICATION

|                                 |                              |
|---------------------------------|------------------------------|
| <b>Reference</b>                | <b>LINEAR WHITE BR 20X30</b> |
| <b>Product Code</b>             | 8027719                      |
| <b>Nominal Size (N)</b>         | 20 cm x 30 cm                |
| <b>Work Size (W)</b>            | 200 mm x 300 mm              |
| <b>Thickness</b>                | 7,2 mm                       |
| <b>Water Absorption</b>         | BIII (>10%)                  |
| <b>Shade Variation</b>          | V1                           |
| <b>Application Joint</b>        | 2,0 mm                       |
| <b>Coverage Area</b>            | 1,50 m <sup>2</sup> /cx      |
| <b>Number of pieces per box</b> | 25                           |

### PHYSICAL PROPERTIES

|                         |       |
|-------------------------|-------|
| Breaking strength (lbf) | ≥ 125 |
| Water Absorption (%)    | 10-20 |

### CHEMICAL PROPERTIES

|                     |         |
|---------------------|---------|
| Chemical Resistance | Class A |
| Stain Resistance    | Class A |

Eliane S/A Revestimentos Cerâmicos

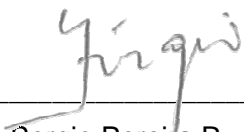

Rua Maximiliano Gaidzinski 245  
88845-000 Cocal do Sul - SC - Brasil

**eliane**

**Attention:**

- Sand may produce scratches on any type of surface covering (stone, wood, vinyl or ceramic tiles). Therefore, ceramic tiles are not warranted against scratches, especially concerning glossy surface products.
- Special care is recommended during the application and its use
- In residential areas, we recommend to protect the base of furniture and appliances.
- Product manufactured by the wet process.
